It is SALT RIFEUM. It I UNDREDS of persons, afflicted by this gravious malady, have made use of this medicine; and it has rarely failed to give satisfaction. In some cases its good effects have been truly wonderful.

The Rev. Josiah T. Huwes, of Edgeomb, Me. under date of April 15, 1833, certifies, "that his wife, after having been afflicted with Salt Rheum, at times, especially in the winter season, for more than tucture years, applied about one year ago to Mr. Trufant for the oixturnt and Medicine, which he had advertised, as a cure for this dreadful disease. She obtained and used it for several weeks agreeably to the prescription of Mr. Trufant, when to her great joy, she found herself, to appearance perfect ly cured. She has had some small symptoms of the disorder once since, but a brief application of the ointment. order once since, but a brief application of the continent. &c. has removed them." He further adds, "Though I will yield to no one in my hatred to quackery, I do most

out house.
During this time she made use of almost every thing which had been recommended to her as good for the com-plaint, hat found little relief; and had formed the con-clusion that there was no help for her. In 1831, she and her child (six months old) were so hadly afflicted that they had but little rest, day or night; the shill being almost covered with sores, and had been in this stafe for several months. A brother of mine, knowing the distribution of my family, advised me by all means to make trial of Trusant's Compound for Salt Rheum. Agreeably to his advise, I purchased a quantity of it, and applied it as directed; and I can after say that in two or three days, they found great relief; and in four week's time, the disorder entirely disappeared. Since that, they have been free from all harmone. appeared. Since that, they have been free from all homore whatever, and enjoy good health, and I have reason to believe are perfectly cured. I have lost two children with the same complaint. Had the same mediciae been applied to them, I have good reason to believe that they would now have been living. I value the Compound highly as a remedy for that natural disease, and with pleasure would recommend it to all who may be afflicted with it. HUSTON STINSON.

Would recommend it to all who has be ambiend with it.

HUSTON STINSON.

Georgetown, May 19, 1838.

No person need fear any evil from it however old or young, or feeble; for it is simple, and may be applied with safaty. It is also a cure for other humors, such as Ring-worms, Scall-Head, Leprosy, Shingles, Itch, for what is wonctimes called the Jackson Itch, and for all catenous diseases. Price one dellar.

Un A writer in a Massachusella paper states a-fact which is of importance to those engaged in the Cod fishery. He says that fish caught with meckerel buit are larger than those caught with claims, for the supposed reason that a larger bast of mackerel can be put upon the hook than of clams; and the larger figh take the inrigent bait. Whatever the reason may be, the fact is atated to be incontravertible. The proportional difference is given as follows: Fish caught with claim bait, will average about 25 quintals to 1000 fich; and the- caught with mackerel bait about 40 to the 1000.

The simple question to determine is as to the right of the district court of Connecticut to tak cognizance of the matter.

Under the laws of the United States all seiz ares in a district are to be taken onlice of in that district where the seizures are inche. 'Flie important question is always as to the place of seiz ures, and the question always turns upon that; of a seizure is made within the limits of a State. the jurisdiction of the district court is local. . It it is made on the high seas, any district court may take cognizance of the matter.

Where then was the seizure made in this case? It seems to be agreed by the counsel in both sides, that the sergure was actually made in the district of New York. If that bethe case, this district court line no jurisdieffin of it whatever. But if the seizure was in fact made on the high seas, this distanct court has jurisdiction. Judge T. said he had supposed at first, that the seizure was in fact, made in the district of New York out when he came to examine the whitela he tound it was not in. Livutenant Gedney in his libel states no such thing. He says he was on survey within the State of New York, but he dues not say that he formally discovered the schooner Amistad within that district, and that he maderthe seizure within the district of New All the evidence before the court is, what is asserted in the libel. wems, was taken off Montauk Point. The Grand Jury in their statement, my it was a mile distant from the shore. If this be correct, it was a seizure upon the high seas, and therefore the matter is rightfully before the court in this dis-

In the absence of absolute certainly on this point the court can end avor to ascertain from the best evidence in their reach, by examining maps and charts, the location of the place; and after making such an examination, they are of opinion that the actual place of scizure does not sppear to be within the jurisdiction of the district court of New York, but aren the high seas. The admiralty jurisdiction upon the ocean extends to low water mark. Between high and low water mark there is alternate jurisdiction between the admiralty and common law courts In deciding then that the seizure was made, in the judgement of the court, upon the high sear,

if either party is dissatisfied, the court can inplitute an inquiry to appertain the exact place, but the more regular course is for the party dissatisfied to interpose a plea to the jurisdiction of the court, and their the district court must instiute an inquiry to ascertain where the seizure was made. It is not competent then for this court, at the present time, to say the district. court cannot now pass upon the question as to the property that matter belongs to the district court. Should either par'y be discatisfied with the decision of that court, as appeal can be tak. on to the circuit court, and afterwards to the supreme court of the United States. Meantime the parties must be put to their pleas in the district court, in order that all the facts, &c.may be

It has been soid that the subsequent proceedings in filing these libels and claims here, were without authority. But if the case is within the jarisdiction of the District Court, other libels could be filed. It is true that if original libels have been filed in order to bring the matter within the jurisdiction of this Court, the proceedings may irregular. If there is any irregularity it can be corrected by filing a new libel, L'a case being in the possession of the claims of any body. They fear that some mangarchension exists in which the case has been disposed of by the G. tion now disposed of hits not been affected by what previously took place: The only matter settled previously was that there had been no criminal offence cognizable by the courts of the United States, 15 the offence of murder has been committed on board a foreign vessel, with to avoid them. He told them of his shause a foreign crew and with fareign papers, This is not an offence against the laws of the U. States. It is an offence against the laws of the country to which the vessel belonged. The Court of the U S have, in such cines, no jurisdiction, but if the offence be against the laws of na tions this Court would have jurisdiction. A murder committed, as in the case of the Armiatad, is not a crime against the laws of pations, were the crime piracy even it would not be a crimeragainst the laws of sations, compensed as, it is with the slave trade.

The Court said that as They perceived there were note takers present they hoped they would be expelul to make a true representation of the decision. The Court does not undertake to decide that these parties have no right to their freedoin, but leave that matter in litigation in the District Court, subject to appeal. And for re-

suns assigned deny this motion. One of the counsels for the prisoners then asked the Court if they manne to express the opinion that a foreigner coming here with a slave can call upon the U. S. C. uris in enforce the claim of the toreigner in the slaves. Judge Starkson, in reply, said he did not wish to de cide now upon the district question. As a judge he did not feel called upon to decide it. The Court was then adjourned sine dic.

The District Court was opened. The judge said he should direct that the U S Atterney should repair to Montaug Point, in the Revenue Cutter, with a gentleman on the other side, to investigate the facts, sacerlain where the seizure was actually made, &c, that the Court would be adjourned to meet in this city on the third Tuesday in November next; and that meantime it would be the duty of the Marshal to see that the prisoners were comfortably situated, and provided with clothes suited to the senson, that they had prepared sufficient food, medical attendance The Court would, it is presumed, allow the prisoners to be discharged on giving bail, but as it must be an oppraisement their commee! would not consent to it. The prisoners will probably be remanded to the jail in New Haven

Fitz Roy for a moment hesitated. He said not a word but retired to the room where his wife sat weeping, and briefly told her he was going with Dick Million to have none more and then, Harriet, then, I will leave off drinking forever. Good night, my wite you need not wait for me?"

He went with the revellers. There were many deep drinkers in that company. Loud was their merriment, and to a late hour of the

night was their carousal kept up. Harriet threw herself in an agony of grief by the side of her children, and wept Lersell to sleep. She was exhausted and tired with watch ing, and on, how sweet is the shirvion of sleep to the wrelchart and broken hearled. She a wok with the earliest dawn. THE ROY AND MAN. From "The School Boy," a work by the Rev. John B. C. Abbot, just published.

A few years ago, there was in the city of Box trait painters whose name was Copley He did not succeed very well in business, still concluded to go to England, to try his fortunes there. He had a little son, whom he took with him, whose name was John Singleton Copley.

John was a very studious boy, and made such rapid progress in his studies, that his father sent him to college. There he applied himself so closely to his books, and became so distinguished a scholar, that his instructors predicted that he would make a very emment man.

After he graduated, he studied law. when he entered upon the practice of his profession, his mind was so richly stored with information, and so highly disciplined by his previous diligence, that he al post immediately obtained celebrily. One or two causes of very great im-portance being intrusted to him, he managed them with so much wisdom and skill, as to attract the admiration of the whole British nation.

The king and his cabinet, seeing what a learned man he was and how much influence he had sequired, felt it to be important to securochis service for the government. They therefore raised him from one post of honor to another til he was created Lord High Chancellor of Eng land the very highest post of honor to which any subject can attain ; so that John Singleton Copley is now Lord Lyndhuret, Lord High Chancellor of England. About sixty years ago, he was a little boy in Boston. His luther was a poor portrait painter, hardly able to get his daily brend. Now, John is at the hend of the nobility of England: one of the most distinguished aren in talent and power, in the House of Lorde, and regarded with reverence and respect by the chole civilized world. This is the reward of ndustry. The studious boy becomes the use-

ful and respected man.

Had John S. Copley spent his school-boy days in idleness, he would probably have par his manhood in poverty and should; But he studied in school when other boys were, idle; be studied in college, then other young. were wasting their time; he ever adopted for his motto " Ultra pergera."
